Distinguished Budget Presentation Award

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

**Nashville/Davidson County Metropolitan Government
Tennessee**

For the Fiscal Year Beginning

July 01, 2021

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the Metropolitan Government of Nashville and Davidson County, Tennessee for its annual budget for the fiscal year July 1, 2021 to June 30, 2022 (FY 2021-22).

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

The GFOA is the leading association for government finance professionals in North America. We first received the award for the fiscal year 1991-1992 book, and we have received it every year since. This year's was given for our *FY2022 Operating Budget* book. GFOA's Distinguished Budget Presentation Awards Program is the only national awards program in governmental budgeting. The government also holds GFOA's Certificate of Achievement for Excellence in Financial Reporting for our Comprehensive Annual Financial Report.

How to Use this Book

Format and Organization of this Book

As the previous Table of Contents demonstrates, this book divides budget information into different sections, each with its own series of page numbers.

Section A is the Executive Summary of the budget, followed by supplemental information about Metro, its organization, finances, and budget.

Section B is the Budget Ordinance and Tax Levy filed as required by Metro Code.

Section C is the Internal Services section which details the individual internal service charges by type for each department. It also contains the methodology for calculating each internal service charge.

Sections D-J present more descriptive operational and budget information about each department (board, commission, or elected office). These departments are grouped by function into each section.

Section K presents the program budgets for each department in the same order as Sections D-J.

All departments included in this book have a uniform format. Each department's budget is presented in a program-based format that provides the reader with a wealth of information, not only about the department's budget, but also about its mission, goals and performance toward providing the very best results possible for citizens.

The following pages provide an example and explanation of each part of the agency budget book pages.

Format and Organization of the Department Pages

Sections D-J of this book contains information at the department level about the:

Mission – Every department's budget pages include a mission statement. A mission statement is a clear, concise statement of purpose for the entire department that focuses on broad, yet distinct results that will be achieved. This statement answers the question, "Why does this department exist?"

Budget summary – Following the mission statement is a table that summarizes the department's financial information for all its annually budgeted funds. It also includes the location of the department as well as the top managers who can explain the budget. This table also contains *per capita* expenditure information at the department level.

Organizational structure – The organization chart shows major department units (divisions/bureaus, etc.) and how they report to the department's director, elected official or board.

Listing of the programs and lines of business – In addition to the organization chart, these pages also include a listing of the lines of business (**in bold**) and programs.

Budget highlights – Budget highlights summarize changes between the FY22 and FY23 budgets. Changes in funding and FTEs are noted, along with the impact of that funding change on performance.

Financial – This table includes a difference column and a % change column for each expenditure listed. At the bottom of the financial page is the *per capita* expenditure information for the department.

FTE information – The FTE information found at the end of each department's information presents the budgeted headcount and full-time equivalent (FTE) position information by fund and classification, along with the class number and pay grade.

Budget and performance information by program – Each program listed includes a statement of purpose – a "mini-mission" as well as a table that presents the budget; full-time equivalent (FTE) positions by fund type (GSD General, USD General, and other Special Purpose Funds). This presentation is designed to consistently present budgetary and performance information in a format that is easy to read.

The table for each program also includes a difference column and % change column. These two columns show the difference in the budget and performance from FY22 – FY23.

Examples are provided following the How to Read Budget Book Financial Schedules and Financial Pages.

How to Read Budget Book Financial Schedules (Revenue and Expenditure Object Groups)

The Chart of Accounts

The budget is organized according to Metro's chart of accounts – the financial accounting and coding structure used in both the budget ordinance and this book. The chart of accounts is composed of funds, business units (BUs), and object accounts.

Funds are accounting entities with their own assets, liabilities, equity, revenues, and expenditures, for certain specific activities or to accomplish definite objectives. Funds may involve many agencies. Legal requirements or financial policies usually restrict our ability to move money between funds, so we cannot necessarily replace or fund operations in one fund with money from another fund. Likewise, in special purpose funds, we often cannot move money from one department to another.

Each fund is made up of one or more **business units** (BUs). BUs are the lowest levels at which we manage and/or report separate financial data; they represent an organizational unit, program, or activity within an agency and fund. A fund may have several BUs, but each BU is associated with only one fund. BUs can also be grouped by **agency**. In departments with strategic business plans, related BUs also form **programs** and **lines of business** that may cross funds.

Object accounts represent individual types and sources of revenues or uses of expenditures.

The Finance Department maintains detailed financial information by fund, business unit, and object account. However, this book presents the budget at a more understandable level by agency, fund (or groups of minor funds), and object group.

Changes in Presentation

Changes in reporting requirements have caused many Transfers to Component Units (certain Metro agencies) to be now classified as Other Expenses. In FY 2005, the Finance Department split the General Government Grants Fund into individual departmental grants funds; these were and are classified as special purpose (specifically, special revenue) funds.

How to Read the Financial Pages

Each agency's financial page presents a summary of revenues and expenditures for the department's operations in one of three fund types:

- The GSD General Fund,
- The USD General Fund, and
- Special Purpose funds (the combined total of annually budgeted enterprise, internal service, special revenue, and similar funds, although that money may not be interchangeable).

The top half of the page presents uses of money – expenses, expenditures, and transfers to other funds and component units of the government. The bottom half presents sources of money – revenues and transfers from other funds.

The difference between total expenditures and program revenues indicates how much the agency's programs depend on public money.

The remainder of this page and the next page describe, in order, what is represented by the rows of the expenditure and revenue financial tables.

Operating Expense

Personal Services – Salaries and wages (regular, holiday, injured on duty, leave, longevity, shift differential, out of class pay, open range increases, overtime, and perfect attendance); fringe benefits (auto allowance, dental, group health, group life, social security, pension, and FSA pre-tax savings); and per diem and other fees (instructors, court reporter, game official, jury pay, legislative delegate, other per diem fees, poll workers, and witness fees)
