Neighborhood Street Traffic Calming Program

Spring 2025 Selection

Top 25 Streets – Prioritization Details

This graphic provides a visual break down of the different scoring components for the top 25 segments.

Vehicular Speed (45%)
How fast are vehicles traveling along the street?

Volume (25%)
How many vehicles are traveling on the street each day?

Non-Driver Accommodations (15%)
Are there sidewalks along the segment and/or bikeways and transit service close by?

Vulnerable User Crashes (10%)
Have there been any pedestrians or bicyclists hit on the street in the past 10 years?

Trip Destinations (5%)
Is the street close to common trip destinations like parks, schools, libraries, and community centers?
