March Team of the Month: **South Nutrition WIC Team**

Which of the following criteria does your nominee most embody?

Excellence in Teamwork Inspiring a Positive Attitude

Please provide a specific example that illustrates why you feel this team should be the MPHD Team of the Month:

This is an email I received after our South Nutrition Center hosted a State WIC employee for the day as a learning opportunity.:

"I sincerely appreciate the opportunity to observe the WIC clinic at South Nashville. I was especially impressed by how well the staff communicate and collaborate as a team rather than working in silos. Their teamwork truly enhances the participant's experience. One participant in particular walked in and became emotional; Mary Ann consoled her, provided a private place to talk, and gave her resources for help. Additionally, everyone did what was needed to ensure walk-ins could be seen on the same day."

I appreciate the staff going above and beyond to help other employees learn about WIC as well as supporting clients when they need extra attention.

Nominated by: Lauren Cromer
