Permit #

2026013062

Scope of Work

From February 23,2026 -April 30, 2026 Belmont University would like to reserve the parking spots on the south side of the street on Caldwell Ave between 15th Ave S and 12th Ave. S. On the south side of Caldwell Belmont has two residential halls for our students and they have began parking on the street instead of their assigne parking area. This has caused this street to become basically a one way street making it difficult for both residents and commuters who travel through this area. With this being a metro street it has made it difficult to enforce for parking for students on this street. We are hoping to secure this permit enforce this rule with only our students and to travel on this road safer and better.

2026015797		7:00 PM - 5:00 AM
------------	--	-------------------

Cleary Construction hereby applies for a lane closure permit to facilitate the installation of a sanitary sewer line beneath White Creek Pike in Joelton. The project will employ the open-cut excavation method installation of 2,750 LF of Sewer Force Main beneath Whites Creek Pike. Which will be constructed in full compliance with NDOT standard details and will extend less than 4 feet across the roadway width in the West bound lane working North to South at the intersection of White Creek Pike and Old Clarksville Pike. To ensure public and crew safety, a full lane closure will be implemented on a 1,000 LF portion of White Creek Pike, performed in three phases (0-1000 LF, 1000-2000 LF, and 2000-2750 LF), and extending to the junction with Old Clarksville Pike. The closure will be in effect daily from 7:00 PM to 5:00 AM or greater. Following each shift, the excavation will be temporarily secured with steel plates, and the roadway will be reopened to traffic. Pentagon Traffic Solutions will provide all necessary traffic control services, including the execution of the closure, flagging operations, and road patrol.
