Scope of Work

Winter Construction will continue to close the NB Lane of Cowan Street in front of the new project address for Hampton Inn (605 Cowan Street) to allow the required work to take place as needed. Trucks bringing in equipment, shoulder work, unloading requirements for the small property site, etc. This work will require the lane to be utilized on and off, with some closures lasting 24 hours or longer until the project is complete. All traffic control devices, personnel, and law enforcement will be on site and placed in accordance with MUTCD Standard, NDOT & TDOT requirements.

Permit #	Scope of Work	Other Day & Hour Restrictions
2026038982	Cleary Construction hereby applies for a lane closure permit to facilitate the installation of a sanitary sewer line beneath White Creek Pike in Joelton. The project will employ the open-cut excavation method installation of 2,750 LF of Sewer Force Main beneath Whites Creek Pike. Which will be constructed in full compliance with NDOT standard details and will extend less than 4 feet across the roadway width in the West bound lane working North to South at the intersection of White Creek Pike and Old Clarksville Pike. To ensure public and crew safety, a full lane closure will be implemented on a 1,000 LF portion of White Creek Pike, performed in three phases (0-1000 LF, 1000-2000 LF, and 2000-2750 LF), and extending to the junction with Old Clarksville Pike. The closure will be in effect daily from 7:00 PM to 5:00 AM or greater. Following each shift, the excavation will be temporarily secured with steel plates, and the roadway will be reopened to traffic. Pentagon Traffic Solutions will provide all necessary traffic control services, including the execution of the closure, flagging operations, and road patrol.-----

6/6/2026 to 6/13/2026

2026046283

We need to close a lane to access a manhole so we can access a fiber optic splice enclosure to do an audit of that splice enclosure, this work will be performed during this customers maintenance window which is from 9:00 PM to 6:00 AM that is the only time we are allowed to access these fiber optics placing closures. We will have a splicing trailer and a truck parked in that lane during this time, we anticipate this being for one night but may take 2 nights to get this done.

**Permit #**

2026046340

Scope of Work

We need to close a lane to access a manhole so we can access a fiber optic splice enclosure that is in that man hole to do an audit o that splice enclosure, this work will be performed during this customers maintenance window which is from 9:00 PM to 5:00 AM that is the only time we are allowed to access these fiber optics splice enclosures. We will have a splicing trailer and a truck parked in that lane during this time, we anticipate this being for one night but may take 2 nights to get this done.

2026046778	We need to close a lane to access a manhole so we can access a fiber optic splice enclosure to do an audit of that splice enclosure, this work will be performed during this customers maintenance window which is from 9:00 PM to 5:00 AM that is the only time we are allowed to access these fiber optics placing closures. We will have a splicing trailer and a truck parked in that lane during this time, we anticipate this being for one night but may take 2 nights to get this done.	9PM to 5AM
